

MINUTES OF THE TOWN OF BARNES ROADS AND RIGHT OF WAY COMMITTEE

June 10, 2019

Members present were Don Dealing, Greg Martin, Tom Emerson, Mark Holm
Also present, Donna Porter
Meeting called to order at 9:06AM, quorum established
Motion to approve minutes of 5/13/19, Martin/Holm, passed without change

Road management plan and traffic counts

Eric has done a drive-around with Morgan and Parmley; plan is in progress. Recent traffic counts were provided by Tom. Discussion of whether mid-week counts would be more accurate than weekend in estimating traffic.

Pine Chip test project

Good chance roads crew will test re-cycled blacktop for Pine Chip. Will check with local resident Lancour.

South Shore Bridge

Design process is anticipated to be a long-term project.

Pease Road and James Road culverts

Culverts have been opened and extended by road crew. Discussion of best ways to achieve 4:1 slopes for Pease Road

Denver Road status

Pulverizing has begun. Existing road is a "sandwich" construction, which will make pulverizing more challenging -- but will ultimately provide a better base for new blacktop. Paving is planned for later in June.

Markers on culverts

Discussion of pros and cons of markers to identify culverts around the township versus simply mapping them. Roads crew estimates there are 50 or more culverts to be designated.

Flex seal forecast

Discussion of flex seal versus rebuild for various roads ongoing.

Motion to adjourn, Emerson/Martin, passed. Meeting adjourned 10:10AM.

NEXT MEETING JULY 8, 2019
