

TOWN OF BARNES PARKS AND RECREATION MEETING

MARCH 31, 2015 10 AM TOWN HALL

Donna called the meeting to order. Present: Susan Pagnucci, Donna Porter, Linda Clark, Marcia Wellnitz, Dana Hodowanic (rep from tourism com).

Agenda posted statement read and approved.(Susan 1st, Linda 2nd)

Feb. 9 minutes approved (Susan 1st, Linda 2nd.)

Tennis court update: Paving Co. suggests it not be completely redone. A grant -2015- from DNR will also include update on basketball ct. (overlay bids). Three contractors were contacted :

1)Northwoods Paving 2)Sinnott Duluth Blacktop and 3:Prefiction Paving- Bloomer WI.

"Armor"- New Jersey- and Northwoods do the similar topcoat process. Next meeting we will get bids on the new coating—Armor type.

Sue has an idea for a grant –Community Garden Plots. This would be on town land and but not part of the park. It would need fencing, water well, to be cleared of trees, and need a shed for storage. Dana suggested a Senior Center rised- bed garden by the town hall - also would beautify the area.. Motion made and passed to have Sue & Dana persue of these ideas-- 1st.Donna, 2nd Marcia.

We all give a special Thanks to Viola Frierhood for her 28 years on the Rec. Com. Marcia is to contact Lu & have Thanks put in the "Blog" - Motion Donna, 2nd Marcia- passed.

Motion to adjourn & have parks inspection -- Sue, 2nd Linda –passed.

Respectfully Submitted Marcia Wellnitz

Parks Inspection: Linda, Sue, Donna, & Marcia

Town Park--Gordon Camp work release program will rake and do other work in the; park about 4-24-15. Park will be closed during that week. A new climbing rope is needed (by the yellow slide). Just north of the old equipment there is a loose bench. (Maybe the Gordon Camp can fix this.) The wooden picnic tables by the shack need to be looked at and reinforced.

Tomahawk Park—Checked equipment—picnic benches, baby swings, steps and railing down to water, roll pier, and bathrooms. All fine at this time. The water level is better this year so far. Could consider swim lessons here next year- if water level continues to go up.
